REINTEGRATION

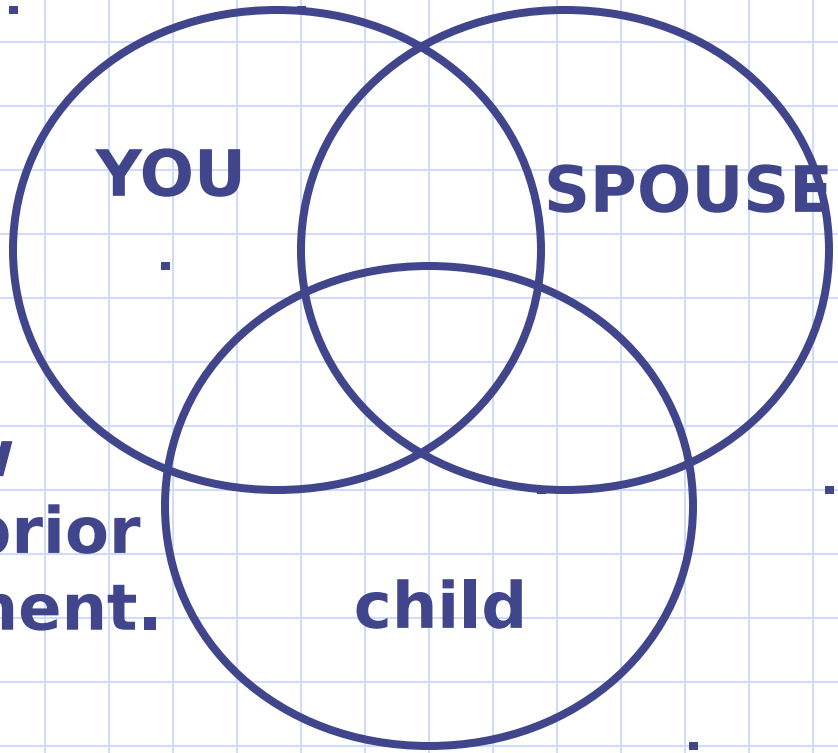
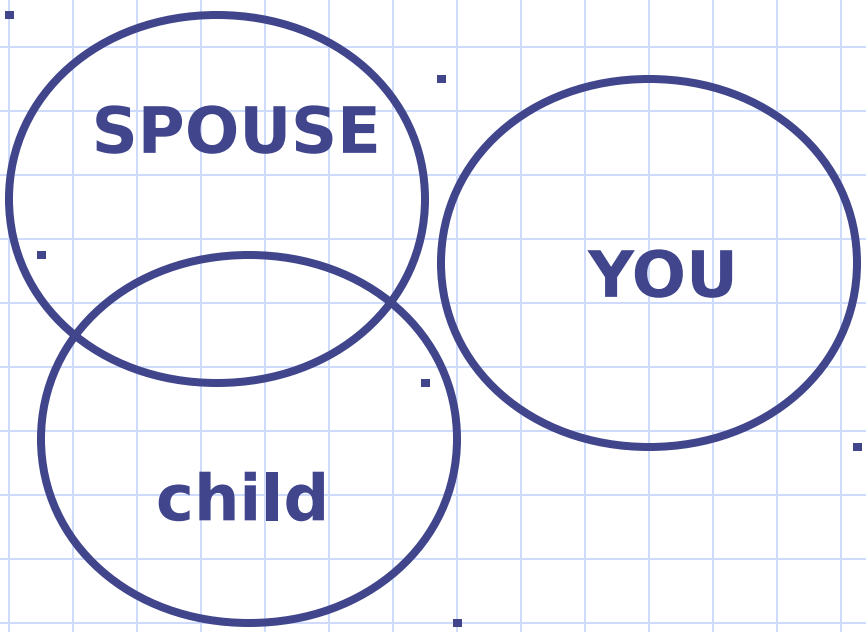
- To integrate is to form, coordinate, and/or blend into a functioning and unified whole
- Reintegration is to make into an entity; to restore to unity the family, marriage, engagement, situation – whatever, from which you have been away

REINTEGRATION



This is how you were prior to deployment.

REINTEGRATION



This is how it looks upon your redeployme

Gotta ‘reintegrate’ yo back into the family structure.

REINTEGRATION

- How do you go through the process of reintegration?
- This is not a test; I am not taking names; need for us to help one another with this one!

REINTEGRATION

- Not at all impossible;
- Must work at it;
- Communication is the key!
- Understanding is essential.
- Negotiate, cooperate, communicate.
